

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## THE PRINCIPLES of the WORKING of VULGAR and DECIMAL FRACTIONS and DUDECIMALS FAMILIARLY EXPLAINED.

By the Rev. JOHN EVANS, M.A., Chr. Ch. Oxon. Incumbent of Whitall, Salop.

"The object is to enable learners, however young, to become familiar with the principles on which the rules for working vulgar and decimal fractions are constructed. For this purpose an easy and homely method of illustration has been adopted, which appears to be very suitable to the object in view."—*The Builder*, April 14, 1860.

"The author has simplified and explained the difficulties of the various rules. The book will prove useful to students endeavouring to conquer these intricate figures. It is strongly recommended by several of Her Majesty's Inspectors of Schools."—*Gloucester Journal*, April 7.

"This book originated from a practical effort made by the author to aid the teachers of his own and some adjacent national schools in their efforts for self-improvement. The MS., originally drawn up as notes of lectures to be delivered to teachers with this object, was found so useful, that at length it was printed at the request of one of H. M. Inspectors, and the sale of a complete edition, in six months, attests its utility. We recommend it to teachers as a supplement to ordinary treatises on arithmetic. The principles by which fractions, &c., are worked, are fully explained and illustrated in a simple homely manner, which will make the work valuable to teachers, both for perfecting their own comprehension of those principles, and for showing them how they may impart such knowledge to their pupils. Mr. Evans has evidently brought to the task a thorough knowledge of his subject, and of the difficulties which lie in the learner's path; and he gives all the help needed for the surmounting of the latter. We are sorry to observe that the author thought 'circulating or recurring decimals not connected with the particular object' of his work, and so omitted them and the principles involved in the process of cancelling. We are convinced that these—especially the former—are the very parts of the subject in which the principles are least understood by those for whom the book is primarily intended, and that such an explanation of these as is given of other rules in fractions and decimals, would very much increase the utility of the work. We hope a future edition will soon be called for, and that the author will then make this addition to the valuable matter already contained in his pages."—*Educational Journal*, Oct. 29, 1860. Simpkin and Marshall.

London: WILLIAM PENNY, 57, Lincoln's-inn-fields, and all Booksellers.

## PREFACE.

---

**T**HE CLERICAL DIRECTORY APPENDIX FOR 1861 has been prepared in deference to the wishes of many of the Subscribers of the work, who have urged its publication on the ground of economy, and as being likely to increase the sphere of usefulness of the DIRECTORY. It was originally the intention of the Conductors of the work to bring out a full and complete edition every year. This announcement was made in the preface of last year's issue ; and, in fulfilment of it, the necessary preparations were entered into to publish the work at the appointed time. However, before proceeding far in the task, numerous letters were received from Subscribers and well-wishers of the CLERICAL DIRECTORY, advocating a biennial instead of annual issue of the complete work. It was contended that a supplement of new names and list of deceased clergymen would be quite sufficient to keep up the general correctness of the book in the interval of the two years, and that the reduced price of the publication in this form would enable many members of the Church, otherwise not inclined to purchase the work, to become regular Subscribers.

It is in order to give this very reasonable proposition a fair trial that the Conductors of the CLERICAL DIRECTORY have ventured on the publication of the present APPENDIX. It is an attempt to meet the wishes of the majority of the Subscribers of the work, and nothing more. The Conductors of the CLERICAL DIRECTORY are as desirous as ever to publish the work annually, but will let the result decide whether this form of publication, or the biennial mode of issue, with alternate Supplements, will be generally preferred.

From Col. W. MAULE RAMSAY, Dalhousie Castle.

"I have tried the dog-cart several times, and am much pleased with it. I think it a most perfect carriage of its kind."

From ARTHUR COSTELLO, Esq., late 7th Dragoon Guards, Edmonstown.

"Mr. Thomson,—I have just received the Dog-Cart safely. In justice to you I must say that a neater, lighter, or roomier cart I have not seen. I shall have pleasure in recommending it."

From R. S. HUDSON, Esq., Roundhay, Leeds.

"I am perfectly satisfied with your registered dog-cart, and I think it one of the most roomy and elegant traps I ever was in. It runs well, and any sized horse could pull it. I shall not fail to recommend it to any friends of mine who are wanting one."

From HOWARD ELKINGTON, Esq., Pembrey, Llanelly.

"It gives me great satisfaction. I find it to be extremely light, convenient, and comfortable."

From Sir J. TYRELL, Boreham House.

"I really like it very much. I think it by far the best of the kind out. It runs very easy and light for the horses, and the springs and appointments are well done. It has given me great satisfaction."

From LIONEL AMES, Esq., The Hyde, St. Albans.

"Having noticed in the *Field* an inquiry as to the best sort of Dog-Cart, I beg to inclose a card from Mr. Thomson, of Perth, who last autumn sent me one of his make. Like your correspondent, I was for a long time in search of a really useful carriage of the kind described, and having in August an opportunity of visiting Mr. Thomson's establishment, I was so pleased with his Carts that I ordered one, and think it fair towards him to say how much I like it. My friends in the neighbourhood also highly approve of it. It is light, roomy, and handy for Ladies, and the cost, without some additions made by myself, Fifty Guineas."

May be seen at the Manufactory of the sole Maker and Inventor,

# Crockford's Clerical Registry

OF WANTS AND VACANCIES IN CONNECTION WITH CHURCH DUTY AND APPOINTMENTS,  
AND SCHOLASTIC OCCUPATIONS.

**THE** working of "CROCKFORD'S CLERICAL DIRECTORY" has necessitated the establishment of a very extensive organisation, and the employment of a numerous staff of assistants for the collection of information respecting the changes daily taking place in the appointments held by Clergymen. With a view to render these measures more perfect for our own purpose, and that the vast machinery thus placed at our disposal may be of use to the Clergy, we have opened at the office of the CLERICAL DIRECTORY,

## A GRATUITOUS CLERICAL REGISTRY OF WANTS AND VACANCIES

IN CONNECTION WITH CLERICAL DUTY AND APPOINTMENTS.

For Curate and Incumbent alike this Registry will be a substitute for advertising and other more expensive means of making their wants known among the Clerical body.

In this *Clerical Registry* will be entered, gratuitously, the fullest particulars of Curacies Vacant, Preferences for Disposal, or Appointments of any kind offered for Clergymen, and also particulars of Curacies required, appointments sought, &c., &c.

This Registry will be open gratuitously to Clergymen, and a sufficient digest of the entries of the fortnight, without names, &c., will be published in each number of the CLERICAL JOURNAL; this digest having a reference to the *Clerical Registry*, from which further information will be promptly furnished, without fee of any kind, to Clergymen applying either personally or by letter.

Forms may be had at the Office, on application by letter or otherwise, for filling in particulars of Wants and Vacancies which Clergymen may desire to register.

"Amongst collections of Hymns whose improved tone and richness of devotion promises us hereafter a real hymnal for the Church of England, 'A Church Hymn-Book compiled by Three Clergymen' deserves a place."—*Guardian*.

"One of the best collections of Hymns. It is a larger Edition (with music) of 'A Church Hymn-Book, compiled by Three Clergymen,' and which was favourably noticed by us two or three years ago. The music (as well as the words) is nicely printed, in short score, for four voices. Most of the chants are of standard character."—*English Churchman*.

Author of "An Essay on Church Furniture and Decoration," &c.

### CONTENTS:

How to Fabricate Wreaths, Wall-devices, Screen-work, Text, Banners, &c.  
How to Plan the Decorations of the Lych Gate, Church-yard Cross, Porch, Piers and Arches, Doors and Windows, Wall-spaces, Screens, Reredos, Standards and Coronas, Pulpit, Font, Communion Tables, &c.  
Conclusion.  
Appendix: Decorations for Easter; the School Feast; Harvest Thanksgiving; Confirmation; Marriage; Baptism; Pattern Alphabets.

### OPINIONS OF THE PRESS.

From the *ART JOURNAL*.—"Mr. Cutts discusses the subject in a true Churchman-like spirit, without an approach to those customs or acts of ecclesiastical decoration which the sincere Protestant abjures. His purpose is to show how ornamentation may be carried out decorously, appropriately, and artistically; he illustrates his principles by a considerable number of woodcuts, showing the effect of the work upon the various parts of a church. The reputation of an archaeologist which the author enjoys eminently qualifies him for the task he has undertaken; and we have no doubt that the little volume will long be a text-book of such matters for the clergy and churchwardens of the Church of England."

"A practical and safe guide."—*Essex and West Suffolk Gazette*.

\* \* The "PATTERN ALPHABETS" referred to in the volume, and COLOURS FOR WAITING THEM, may be had of **JAMES BROOKS, Esq.,** Architect, 5, Bloomsbury-square, London, W.C. The Alphabets are made in two styles and of two sizes (6 inches and 3 inches), and are sold at 2s. 9d. the set of two, post free. Orders should be accompanied by postage stamps for the amount.
